## EDUCATION

### Northeastern University

Boston, MA

*Honors Candidate for Bachelor of Science in Computer Science, Minor in Mathematics*

*Graduation: 2027*

**Awards:** Dean's List (F24, S25)

**GPA: 4.0 / 4.0**

**Relevant Coursework:** Object Oriented Design, Algorithms and Data Structures, Special Topics in Cloud Computing, Discrete Mathematics, Linear Algebra, Computer Systems, Fundamentals of Computer Science I/II (Accelerated)

## TECHNICAL SKILLS

**Languages:** Java, Python, JavaScript, TypeScript, HTML, CSS, C++, C#, C, Racket

**Frameworks & Libraries:** React.js, Vue.js, Next.js, Spring Boot, Tailwind, Express.js, Node.js, Flask, tRPC, Prisma

**Tools & Platforms:** Git, Docker, AWS, PostgreSQL, Vercel, GitHub Pages, n8n, JUnit, VS Code, IntelliJ, Cursor

**Certifications:** AWS Cloud Practitioner

**Interests:** Skiing, Biking, Basketball, Tennis, Cooking, Rock Climbing, Eagle Scout

## WORK EXPERIENCE

### Technical Lead and Head of Recruiting

Jan. 2025 – Present

*Sandbox at Northeastern*

*Boston, MA*

- Lead a 9 person team through the technical development of a new full-stack software platform for Good Dog Licensing, a client-based project for Green Line Records at Northeastern University (*see project below*)
- Coordinate weekly client meetings with Professors from Good Dog Licensing to present ongoing product progress, facilitate discussions, and gather actionable feedback essential for refining and enhancing the platform
- Improve and oversee the recruitment process for 200+ students progressing through applications, technical challenges, interviews, and then decisions for about 10 positions as developers in Sandbox at Northeastern

### CS Curriculum Lead

Aug. 2024 – Present

*FirstByte*

*Boston, MA*

- Build and strengthen partnerships with 4+ high school after-school programs to expand the reach of computer science curriculum to 9th – 12th grade students in the local Boston area who otherwise lack access to the field
- Lead a team of 8+ in designing and developing engaging workshops that teach core computer science concepts
- Coordinate workshops both on Northeastern's campus, and at local Boston organizations, like Camp Harbor View, to provide students with hands-on learning experiences that prepare them for higher education

### Research Assistant

Aug. 2025 – Present

*Khoury College, Northeastern University*

*Boston, MA*

- Develop an AI-powered assistant using n8n autonomous workflows and the ChatGPT LLM API to integrate course materials and automatically answer questions for 215+ students, providing homework hints and general knowledge
- Implement context retrieval methods using Pinecone Vector Stores to ensure accurate and relevant responses

### Teaching Assistant

Aug. 2025 – Present

*Khoury College, Northeastern University*

*Boston, MA*

- Reinforce key concepts to guide 500+ students through the course material for Object Oriented Design
- Facilitate course functions by leading labs, hosting office hours, answering questions, and grading assignments

## PROJECT EXPERIENCE

### Good Dog Licensing | *React.js, TypeScript, Tailwind, Next.js, tRPC, Prisma*

Jan. 2025 – Present

- Collaborated with the team to develop solutions for our client's challenges while supporting each other's growth
- Develop responsive frontend components and pages that seamlessly integrate with backend services, providing forms for users to submit music and media, and giving admins dynamic dashboards to efficiently match content
- Build and iterate on the music submission and matching backend tRPC workflows as the client's needs change

### Clue Sidekick | *Vue.js, TypeScript, Tailwind, Java, Spring Boot, Vercel, AWS*

May. 2025 – Jul. 2025

- Designed an intuitive Vue.js interface compatible with any variation of Clue, featuring chat-style interactions that guide players, track guesses, and generate an automated, color-coded scorecard that makes deductions for them
- Developed an automated deduction engine in Java Spring Boot that tracks hidden information across multiple players and pinpoints solutions using process of elimination
